GitHub | LinkedIn | CodeChef

EDUCATION

Maharaja Agrasen Institute Of Technology
B.Tech Electronics and Communication Engineering
CGPA: 9.3

New Delhi, India
July 2020 - July 2024

EXPERIENCE

GoMechanic | Front-end developer Gurugram, Harayana, India | 26 September - 24 December, 2022

- Developed and implemented new modules for the front-end website, including a cricket match prediction feature using React.js.
- Utilized POSTMAN to create advertising templates using HTML and CSS, enhancing the UX.
- Improved front-end workflows and added new features to boost functionality and user engagement.

EventGraphia | Front-end developer Gurugram, Harayana, India | August 2023 - Present

- Developed and managed EventGraphia's web pages, transitioning from jQuery to a more modern React frontend, enhancing user experience and performance.
- Designed an efficient upload page enabling users to upload multiple images simultaneously and queue additional images, improving overall workflow.
- Created advanced features including an album page with autoplay and a video player with overlay controls, offering enhanced user engagement through quality switching and playback speed adjustments.
- Engineered a robust blog system with Python Django, jQuery, and MongoDB for SEO optimization, offering a seamless and intuitive platform for content creation and management.
